DETAILED ACTION

Allowable Subject Matter

- 1. Claims 1-38 are allowed over the prior art of record.
- 2. The following is an examiner's statement of reasons for allowance: an image reading device, as claimed, more specifically in combination with reading in IR and visible components, correcting defective pixels based on a reference level and the IR component and determining a reading condition based on the corrected visible image data or based on the visible data other than the defective pixel, is not disclosed or made obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

- 3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Childs (U.S. Patent 4,680,638) discloses an image reading device that corrects for defective pixels. Childs lacks any disclosure of determining a reading condition as claimed.
- 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thanh X. Luu whose telephone number is 571-272-2441. The examiner can normally be reached on M-F 6:30AM-4:00PM.
